

I

understand

what being safe and

protected means

I

know

that people

care

about me

I

can talk about my

feelings

and

emotions

I

learn

why

some things are not

safe

There is an adult who will

listen

and take me seriously

I

feel

looked after

valued, respected and

safe

I

am

able

to

get

help

I

know

how to be safe

online
