**Barriers to achievement summary**

- The young person identified in this academic year catch up has school have difficulties with communication, this is often presented through behaviours.

**Items/projects and rationale**

- To provide Individual opportunities to improve sentence structure by commenting and using colourful semantics.
- To provide Individual opportunities to improve pre writing and writing skills with the use of motivating resources

**How the effect will be measured**

- The effects of this will be measured through progression in attainment towards the expressive and receptive communication strands in literacy using the B Squared assessment tool. In addition behavioural outcomes will also be measured to show a reduction in communication related behaviours. Ehcp outcomes will also be measure in terms of the achievement in relation to this intervention.

**Expected outcome effect of Year 7 catch up spending**

- Increased outcomes in relation to expressive communication
- Increased attainment in relation to writing
- Decrease in behavioural incidents (ability to expressive needs more clearly through increased vocabulary and sentence building)

**Actual outcome (July 2018)**

- Assessments in Maths and English using schools assessment system details:
  - +77% value added in English
  - +123% value added in Mathematics
- The young person is also on track to meet their key stage ehcp and annual review targets.
