<th>Identified Need</th>
<th>Action Purchase</th>
<th>Cost</th>
<th>Expected Impact</th>
<th>Impacted Achievement</th>
<th>Evidence</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hyper/hypo sensitivity issues causing behavioural disruptions in class. YP will benefit from a sensory diet.</td>
<td>Purchase sensory equipment</td>
<td>£4,904.08</td>
<td>Students and YP will develop alternative ways to self manage behaviour through a series of relaxation techniques.</td>
<td>Behaviour exhibited by the YP in relation to sensory needs has reduced. This can be seen in the graphs attached.</td>
<td>Whole school behavioural graph showing reduction in the frequency of incidents.</td>
</tr>
<tr>
<td>Functional communication deficit causing some young people to express their needs in inappropriate ways</td>
<td>IPad and software</td>
<td>£1,393.35</td>
<td>The software will give the YP alternative ways to communicate in more effective ways through a differentiated communication system tailored to individual need.</td>
<td>The introduction of the new communication system has shown a reduction in behaviours relating to gaining access to tangibles and has also shown an increase in literacy levels.</td>
<td>Graph showing the increase of literacy levels across the school.</td>
